Such a survey, analysis, or evaluation may, however, be conducted on a wholly voluntary basis, provided that the student and parents have been notified of their rights under Section 123h (“Protection of Pupil Rights”) and of the right to inspect all materials related to the survey, analysis, or evaluation. Additionally, in any covered programs, all instructional materials, including teacher’s manuals, films, tapes, or other supplementary instructional material which will be used in connection with any survey, analysis, or evaluation or part of any applicable program shall be available for inspection by the parents or guardians of the children.

ARTICLES PROHIBITED IN SCHOOL

Annually, problems arise because students bring articles or substances that are hazards to the health and safety of themselves or others or in some way interfere with school procedures. Consequently, the possession of any substances or articles meeting the above description is not to be brought to school or used in school.

Except for clear water bottles, no unopened beverages will be permitted inside the school unless it is after regular school hours. **No glass bottles are permitted.** Any canned beverages should be consumed during lunch periods and are required to stay in the cafeteria area only. Gym bags, backpacks and jackets are to be stored in the student lockers, and may not be taken into the classroom without permission.

Students are permitted to carry water with them during the school day. Water must be in clear plastic bottles only. Water bottles must be secured with a cap. Other colored liquids or vessels will be confiscated.

ATHLETIC POLICIES

No student will be permitted to practice or play without having a physical and obtaining parental permission on an eligibility form and submitting such a form to his/her coach. Practice or conditioning during off-season is NOT mandatory. No Sunday practices/games will be scheduled. The athletic uniform and school-issued equipment must be returned at the end of the season. For purpose of the policy, the program of interscholastic athletics shall include all

activities relating to competitive sport contests, games or events or sport exhibitions involving individual students or teams of students of this district when such events occur between separate schools within this district or with any schools outside this district.

It shall be the policy of the Board to offer opportunities for participation in interschool athletic programs to male and female students on an as equal basis, in accordance with State and Federal regulations and school district fees. Board approved programs of interscholastic athletics shall require that all facilities utilized in that program, whether or not the property of this Board, properly safeguard both players and spectators and are kept free from hazardous conditions.

Eligibility Requirements

Students who participate in any interscholastic activity must conform to the eligibility rules of the Pennsylvania Interscholastic Athletic Association, P.I.A.A. Some of the most important rules are as follows:

1. **Maximum Age Rule:** A student shall be ineligible for interscholastic athletic competition upon attaining the age of nineteen (19) years, with the following exception: If the age of nineteen (19) is attained on or after July 1, the student shall be eligible, age-wise, to compete through that school year.
2. **Amateur:** A student must be an amateur in order to participate.
3. **Transfer:** Special rules applying to students, who transfer from one school to another, other than from the junior high school to senior high school, restrict participation.
4. **Representation:** Any member of a team who participates in an athletic contest as a member of any other similar team representing any organization other than the school during the same season, which season shall include vacations, holidays, and periods of suspension, shall be ineligible to compete in that sport for the remainder of the season. In golf, tennis, gymnastics, swimming, and volleyball this rule may be waived with regard to particular individuals, provided that such waiver is first approved in writing by the principal of the school concerned and is authorized by the District Committee.

Philosophy of Student Co-Curricular Activities

The administrative staff and faculty recognize the value of a comprehensive program of co-curricular activities in the total developmental process of a student. As a result, the athletic and non-athletic activities are designed to assist with the physical, social, emotional and moral development of our students. The activities are also intended to provide for the development of a wholesome, competitive spirit, and a sense of pride and confidence through accomplishment. At no time are these activities to interfere with the primary educational function of the school district, or assume stature that is out-of-line with the objectives of the co-curricular program. The co-curricular program is an important and integral part of the total school program and is open to participation by all students. Through voluntary participation, the student gives time, energy and loyalty to the program. The athlete also accepts the training rules, regulations and responsibilities which are unique to a co-curricular program. In order to contribute to the welfare of the group, the student must willingly assume these obligations.

Participation in interscholastic athletics where students represent the school or in any other co-curricular activity is a privilege and student conduct and academics must be beyond reproach. The Code of Conduct for students involved in co-curricular activities does not supersede the

“Code of Student Behavior” handbook, but will be used by sponsors and coaches to ensure that all students are involved in activities are treated uniformly and fairly. Each program may establish additional rules which apply specifically to that program, but these rules cannot supersede the items contained in this Code.\

Code of Conduct (General Regulations)

1. Pennsylvania Interscholastic Athletic Association rules must be followed in all cases of eligibility, transfer, physical examinations, insurance coverage, starting dates, and use of school equipment. Each coach or sponsor has the responsibility to know, to inform team members and parents, and to enforce school and P.I.A.A. regulations in these matters. The following P.I.A.A. rules, in regard to academic achievements, will apply to all students involved in activities whether they be athletic or non-athletic:

a. In order to be eligible for sports (and any student participating in extra-curricular activity) a student may not fail more than one subject. Upon notification of such failures such athletes may not participate until the aforementioned criteria is satisfied. (Incompletes count as failures)

b. At the end of the school year, the student’s final grades and credits in the student’s subjects, rather than the student’s grades and credits for the last grading period, shall be used to determine the student’s eligibility for the next grading period.

2. Any conduct by a student participant that is determined by the head coach or sponsor and school administration to be detrimental to the athletic or the co-curricular program, school or school district will result in counseling by the head coach or sponsor and a school administrator with possible suspension from the sport, activity and /or school.

3. Participants must travel to and from activities, away from Juniata County in transportation provided by the school district or other district-approved means. The only exceptions are:

a. Injury to a participant which would require alternate transportation.

b. Prior written note from participant’s parent or guardian to the coach or sponsor for the student to ride with the parent or guardian.

c. Athletes will never be given permission to ride home with other students.

4. A display of unsportsmanlike conduct toward an opponent, teammate, official, coach or sponsor, or use of profanity during a practice or contest will result in counseling by the head coach or sponsor and possible suspension from the program. If this type of behavior occurs more than once, a student may be suspended from the program for the remainder of the season.

5. Unexcused absences from scheduled practices and /or contests may result in:

a. First Offense: Actions ranging from warning to 2 week suspension

b. Second Offense: Actions ranging from 2 week suspension to season maximum action.

6. Violations of the code of Student behavior that result in detention or suspension, other than possession and/or use of alcohol or illegal drugs, may result in:

a. Suspension from one (1) contest following the first violation.

b. Suspension from the program for the remainder of the season following the second violation.

ü A student who is assigned to detention after school may report to practice only after the detention period is completed.

ü A student who is assigned to in-school or out-of-school suspension may not participate in any activities after school or in the evening of each day of the suspension. For suspensions that carry from the end of the week to the beginning of the following week or extend over non-school days, the student will not be permitted to participate in any activity that is scheduled for those days.

7. Theft or malicious destruction of any school or individual's equipment or property is not to be tolerated:

a. First Offense- The individual may be suspended from the program for five (5) school days. At the end of this period, following counseling by the head coach or sponsor and a school administrator, a decision regarding further competition will be made.

b. Second Offense- Suspension from the program for the remainder of the season and a referral of the student to the school administration for appropriate disciplinary action.

School Attendance Requirements

1. A student must be in school by the regular established time schedule in order to participate in an activity that day. The principal has the discretion to review extenuating circumstances and to make a determination on an individual student basis. Sports participants must be in school at the **beginning of first period** to be eligible for practice or interscholastic competition that day. Acceptable exceptions include medical appointments; drivers permit application or exam, college or trade school visitation, and funeral, if the student returns or leaves during school time.

2. If a student is absent on a day prior to a non-school day(s) and the competition is on a non-school day, the student must bring the coach or sponsor a signed statement from the parent or guardian explaining the reason for the absence. It is recommended that the coach or sponsor call the parent or guardian regarding the absence.

3. A student who has been injured and has had medical treatment cannot participate again until the date indicated by the student's doctor.

Use or Possession of Alcoholic Beverages or Illegal Drugs

Use or possession of alcoholic beverages, or illegal drugs by co-curricular participants is strictly prohibited. Separate and apart from the consequences for such behavior under the Student Discipline Code, students may be excluded from participation in co-curricular and/or interscholastic athletic activities for forty-five (45) school days to one hundred eighty (180) school days, in addition to referral to the SAP team for appropriate assessment.

Before any suspension provided under these rules shall take effect, the student shall be verbally advised of the alleged violation by the head coach or sponsor and the student will have an opportunity to explain.

1. The coach or sponsor will then make a recommendation, if any, to the appropriate administrator.

2. The appropriate administrator will then notify the student of the penalty after consultation with the head coach or sponsor.

3. The student may request a meeting with the building principal for purposes of reviewing the circumstances and the penalty. The student's parents shall be notified of such a meeting and will be permitted to attend.

4. The decision of the building principal shall be final.

The rules and regulations in this Code shall apply to any violations, on and off school premises, during the season of participation where the violations can be determined. Additional rules or regulations from the head coach or sponsor must be cleared by the administrator in charge. Any additional rules and regulations must be in writing and on file in the appropriate office.

Attendance Policy

The following reasons for absences are valid:

- Illness
- Death in the immediate family (three-day limit unless extenuating conditions exist)
- Absences approved in advance with school principal
- Emergency medical or dental attention
- Authorized religious holidays

The school may require a doctor's excuse if it is deemed advisable. If a student accrues 10 days of absences during the 1st semester or 15 days during the school year they will be required to furnish a doctor's excuse for each additional absence. A student has three days upon return to school to turn in the excuse. After that time, the absence will be considered illegal. After three (3) illegal absences have been accumulated, students will be notified of possible fines and/or legal action that will be taken if they incur additional illegal absences.

Family vacations (5 days total) that are taken during the course of the school year will be coded as excused, if parents have completed the vacation approval application form 10 days in advance. Educational tours and trips will not be approved during PSSA or Final exam testing windows.

Students who are 17 and older, who are not subject to the compulsory attendance provisions of the Pennsylvania School Code, shall be allowed a maximum of three days of unexcused absences without penalty during a school year. Following three days of unexcused absences, written notice of such violations will be given by the administration to the student and parent. All subsequent unexcused absences must be made up through detention at the rate of 5 1/2 hours for each unexcused day incurred.

The principal's decision concerning unexcused absences shall be final, and all unexcused absence time must be made up prior to grade promotion or graduation.

PASSES FOR LEAVING SCHOOL

Students are not permitted to leave the school grounds at any time during the school day without permission from the school office. If you leave the building because of illness or any other emergency, you must sign out. Failure to follow the proper procedure will be considered an unexcused absence.

TARDINESS

Students must be in their assigned room by morning late bell or they will be considered tardy. Upon a student's second tardy, he/she will be assigned detention time so each subsequent tardy. After four tardies, a student will be notified that all future tardies must be accompanied by a doctor's excuse, or each tardy will be considered as one-half illegal day. If you arrive late to

school, sign in immediately. All students who are participating in any extra-curricular activity must be in school by the beginning of first period in order to attend practice, events, performances, or field trips that day. If you arrive after 9:30 AM, it will be considered an absence rather than a tardy! If you arrive late to class, your teacher will require you to get your planner signed from the office. If you have been detained in the office, or by a teacher, get your planner from the person who detained you before going to your next class. A student who is not at school by the beginning of first period cannot participate in any extra-curricular activities without a valid excuse approved by the Principal.

EARLY DISMISSAL FROM SCHOOL

Early dismissal will be granted for the same reasons permitted for legal absences. Students are encouraged to schedule appointments with their doctor or dentist after school hours. However, when emergencies demand, the appointment should be made as early or as late in the school day as possible. To be dismissed early, students should bring a written note signed by a parent or guardian requesting permission to leave and state the reason, plus the name of the doctor or dentist and time of appointment. Dismissals prior to 2:15pm will be considered a half-day absence.

CAFETERIA

The Juniata County School District is committed to exploring and developing a wide variety of educational opportunities for its students. One of these areas is the continued promotion of individual responsibility and proper social conduct. Therefore, the District does not allow grades fourth through twelfth students who pay full price for meals to charge beyond the \$6.75 limit listed above. By not permitting these students to charge for meal products beyond these limits, it is hoped that they may be encouraged to make proper life choices while still having the benefit of learning these lessons in a caring school environment.

However, if a grade 4-12 student, who pays full price for their meals and has exceeded the \$6.75 limit, does not have money available for lunch, other meal arrangements should be made. If other meal arrangements are not possible, the District shall supply the affected student with a REIMBURSABLE LUNCH, consisting of a peanut butter and jelly sandwich, carrot sticks, apple sauce and reduced fat white milk at the regular cost of a school lunch and it will be charged to the student's lunch account.

Grades fourth through twelfth students, who receive reduced price meals, may not incur charges exceeding \$1.50 and are not permitted to charge for a la carte products, such as extra milk. Once a student's account reaches a negative balance of \$.80, the school will issue notification that the account needs replenished. If the student's account is not replenished and ultimately exceeds the \$1.50 threshold, parents will be encouraged to make other meal arrangements for their child. If other meal arrangements are not possible, the District shall supply the affected student with a REIMBURSABLE LUNCH, at the regular cost of a school lunch and it will be charged to the student's lunch account.

A la carte items are not part of the lunch program and cannot be charged. Students with a negative account balance may not purchase ala carte items even with cash. A la carte items are a privilege and may only be purchased if a student's lunch account has sufficient funds to cover the purchase.

Students in all grades, who have exceeded the \$6.75 charge limit, may receive a Reimbursable Lunch by paying the cash value at the time of service. Students may not pay ahead on future meals and all monies must be put toward the existing balance.

This policy is in accordance with the National School Lunch Program Policy regarding lost, stolen, or misused used Lunch Monies, Tickets, or Meal Charges.

To encourage good nutrition, a well-balanced breakfast and lunch are offered at a reasonable price:

Breakfast price \$ 1.30

Secondary Lunch \$ 2.60

Students are expected to:

- * Deposit all lunch debris in wastebaskets
- * Return all trays and utensils to the dishwashing area
- * Leave the tables and floor clean for others
- * **Get principal's prior approval before bringing food from outside vendors into the cafeteria**
- * No food or beverages may be taken from the cafeteria.

CARE OF SCHOOL PROPERTY

Students are responsible for the proper care of all iPads, books, supplies, and furniture supplied by the school. Students, who disfigure property, break windows, or does other damage to school property or equipment will be required to pay for the damage done or replace the item.

In the event it becomes necessary for school to be closed due to inclement weather or emergency circumstances, an announcement will be made to local TV and radio stations along with an announcement through our One Call system. Please do not call school officials, radio stations, or television stations!

COMPUTER NETWORK USAGE AGREEMENT

Computers are available for student use and are to be considered a learning instrument, a research tool, and a privilege to use. This privilege may be revoked by the principal if students violate the usage agreement. Students who wish to make use of any computer labs, including those who are enrolled in a computer class, must have an "Acceptable Use Agreement for Use of the Computer Networks" signed by the student and their parent/guardian and returned to one of the computer instructors prior to using a computer for any purpose. Those without a signed agreement will not be permitted to use the school's computers. Attempting to circumvent the filter will result in a loss of computer privileges.

DISCIPLINE PLAN (STUDENT CODE OF DISCIPLINE AND RESPONSIBILITIES)

I. Philosophy

All students have the right to a quality education. However, with this right comes the responsibility to act, dress, study, and express oneself in an appropriate manner suitable for maintaining an environment conducive to learning. Student responsibilities include regular school attendance, conscientious effort in classroom work, and conformance to school rules and regulations. Most of all, students share with the administration and faculty a responsibility to develop within the school a climate that is favorable to learning and living. It is the intent of the Juniata County School District to protect and preserve the rights of all our students in an effort to provide the best education possible.

It is the responsibility of all associated with the school- students, parents, and staff – to promote good discipline in order to preserve the quality of our educational environment. We believe an effective discipline code must adhere to the following:

1. Recognize the inherent qualities of each individual.
2. Promote self-discipline and prevent, rather than treat, problems.
3. Cultivate the welfare of the individual and the school as a whole.
4. Foster a close relationship between parents, students, and staff. The importance of parent, teacher, student, and administrative cooperation cannot be underestimated.

The function of this discipline code is to create a fair and consistent means of handling infractions of school regulations that interfere with the teaching and learning processes or that endanger others. This discipline code results in progressive penalties for students' misbehavior. It is the obligation of all students to become familiar with the discipline code and the rules and regulations of the classroom teachers. Pleading ignorance of these codes and rules does not excuse students from the consequences associated with unacceptable behavior.

Consequences for Misbehavior:

Verbal Warning or Reprimand by a school official

Student Conference with school officials

Parental Contact/Conference

Parent/Student/Administrator Conference

Loss of privileges for a designated period of time (i.e. parking, attendance at school-related events, participation in activities, trips, eating lunch in the cafeteria)

Detention- a student may be required to report before/after the normal school day as assigned by an administrator. Students must be on time. Detention begins promptly at the assigned time. Students will be expected to complete work during this detention time. Students will be permitted to serve their detention with a teacher should they bring a pass from the teacher to the detention monitor. It is the responsibility of the student to arrange his/her own transportation home. A minimum of a twenty-four (24) hour notice will be given to the student unless parental permission is granted. If problems arise in detention, a referral may be made to the Principal or

Assistant Principal will intervene. If a student misses an assigned detention, the student will receive one day of out-of-school suspension.

Out of School Suspension- The removal of the student from school for a designated period of time. The student will take textbooks home, and have lessons provided by the student's instructors to be picked up at school at a designated time. All assignments are due upon the day of student's arrival back to school. Students on Out-of-School Suspension are not permitted to be on school property during school hours on the dates of suspension without prior administrative approval. Failure to comply with this notices could be considered trespassing and result in the involvement of law enforcement officials.

Expulsion- usually follows or occurs during suspension. It will be in accordance with Pennsylvania State Code.

II. Student Responsibilities

Each student will be issued this student handbook. IT IS EACH STUDENT'S RESPONSIBILITY TO REVIEW THIS BOOKLET WITH HIS/HER PARENT(S) OR GUARDIAN(S). If a student and/or his /her parent(s)/guardian(s) have any questions regarding student rights and responsibilities, please contact a school administrator.

1. Be honest and truthful.
2. Maintain behavior that provides and environment that does not interrupt the education of other students.
3. Be well groomed- students should not wear attire that causes a disruption to the school environment or poses a risk to the health and safety of the other students. See clothing policy.
4. Comply with all state and local laws.
5. Recognize that all rules and regulations in the school will be in effect until notice is given of changes.
6. Respect all property, including that of the school, staff, students, teachers, and bus contractors.
7. Attend school promptly and daily, unless excused, and be on time to all classes. A student is not permitted to leave school grounds unless the principal has granted prior permission.
8. Be considerate of others.
9. Adhere to a hands and feet off policy, which means no kicking, hitting, pushing, shoving, or fighting. This also means that public displays of affection will not be permitted.
10. Refrain from inappropriate and profane language.
11. Responsibilities and expectations for school also apply on the bus to and from school.
12. Complete class tasks promptly, neatly, and accurately; obey classroom rules. Satisfactorily complete all courses of study prescribed by state and local authorities.

III. Parent/Guardian Responsibilities

A cooperative effort between the home and school is necessary if students are to achieve their highest potential.

1. Demonstrate a supportive attitude toward school and education.
2. Develop a good relationship with the school staff.
3. Promote a respect for others and for property.
4. Support good attendance habits by providing the school with a written excuse on the day of your child's return (please refer to the "Absences" section of this student handbook).
5. Maintain open channels of communication with the school's teachers and administrators.

6. Provide a conducive environment in which to study at home.

Teachers' primary objective is to provide a well-rounded education which will prepare students for future endeavors. The teachers should strive to do their best to plan interesting and educationally sound activities that support the goals of the school.

1. Promotes a climate of respect and dignity designed to strengthen the self-image of each student.
2. Develop a close cooperative relationship with parents for the educational benefit of the student.
3. Identify changing behavior patterns and personality traits of all students and communicate this information to the appropriate personnel.
4. Distinguish between minor misconduct, which is best handled by the teacher, and major misconduct, which is best handled by the administrator.
5. Assist in the enforcement of the discipline code in all areas of the school. In order for discipline to be effective and consistent or policies must be enforced by all faculty and staff members.

Bullying

The Juniata County School District recognizes that bullying and intimidation have a negative effect on school climate. Students who are intimidated and fearful cannot give their education the single-minded attention they need for success. Bullying can also lead to more serious violence. Every student has the right to an education and to be safe in and around school.

Bullying means an intentional electronic, written, verbal or physical act or series of acts directed at another student or students, which occurs in a school setting that is severe, persistent or pervasive and has the effect of doing any of the following:

1. Substantial interference with a student's education.
2. Creation of a threatening environment.
3. Substantial disruption of the orderly operation of the school.

Bullying, as defined in this policy, includes cyber bullying. School setting means in the school, on school grounds, in school vehicles, at a designated school bus stop or at any activity sponsored, supervised or sanctioned by the school. The Board and staff shall not tolerate any bullying on District grounds or at any school activity on or off campus. The Board encourages students who have been bullied to promptly report such incidents to the building principal or designee. The Board directs that complaints of bullying shall be investigated promptly, and corrective action shall be taken when allegations are verified. Confidentiality of all parties shall be maintained, consistent with the district's legal and investigative obligations. No reprisals or retaliation shall occur as a result of good faith reports of bullying. Each student shall be responsible to respect the rights of others and to ensure an atmosphere free from bullying. The District expects staff members who observe or become aware of an act of bullying to take immediate, appropriate steps to intervene. If a staff member believes that his/her intervention has not resolved the matter, or if the bullying persists, s/he shall report the bullying to the school principal for further investigation.

Children ages three to school-age may be eligible for Early Intervention services if they are experiencing developmental delays. Developmental delays, as defined by the State and as measured by appropriate diagnostic instruments, include a 25 percent delay or a test performance of 1.5 standard deviations below the mean on a standardized assessment in one of the following developmental areas: physical development, cognitive development, communication development, social or emotional development or adaptive development. A young child may also be deemed eligible if they are determined to have a diagnosed disability as defined by PA Chapter 14 regulations. Eligibility for Early Intervention services is two-pronged. The child must be

diagnosed with a developmental delay or a diagnosed disability and display a need for specially designed instruction. Specially designed instruction means adapting the content, methodology, or delivery of instruction to address the unique needs of the child and to ensure access to the general education curriculum.

Evaluation Process

Each school district, intermediate unit, and charter school has a procedure in place by which parents can request an evaluation. For information about procedures applicable to your child, contact the school which your child attends. Telephone numbers and addresses can be found at the end of this notice. Parents of preschool age children, age three through five, may request an evaluation in writing by addressing a letter to the intermediate unit staff.

Consent

School entities cannot proceed with an evaluation or reevaluation, or with the initial provision of special education and related services, without the written consent of the parents. For additional information related to consent, please refer to the Procedural Safeguards Notice which can be found at the PaTTAN website, www.Pattan.net or your educational agency. Once written parental consent is obtained, the district will proceed with the evaluation process. If the parent disagrees with the evaluation, the parent can request an independent education evaluation at public expense.

Program Development

Once the evaluation process is completed, a team of qualified professionals and parents determine whether the child is eligible. If the child is eligible, the individualized education program team meets, develops the program, and determines the educational placement. Once the IEP team develops the program and determines the educational placement, school district staff, intermediate unit staff, or charter school staff will issue a notice of recommended educational placement/prior written notice. Your written consent is required before initial services can be provided. The parent has the right to revoke consent after initial placement.

Confidentiality of Information

The SDs, IUs and CDs maintain records concerning all children enrolled in the school, including students with disabilities. All records are maintained in the strictest confidentiality. Your consent, or consent of an eligible child who has reached the age of majority under State law, must be obtained before personally identifiable information is released, except as permitted under the Family Education Rights and Privacy Act (FERPA). The age of majority in Pennsylvania is 21. Each participating agency must protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. One official at each participating agency must assume responsibility for ensuring the confidentiality of any personally identifiable information. Each participating agency must maintain, for public inspection, a current listing of the names and positions of those employees within the agency who have access to personally identifiable information.

For additional information related to student records, the parent can refer to the Family Education Rights and Privacy Act (FERPA).

McKinney-Vento Homeless Assistance Act

The McKinney-Vento Homeless Assistance Act is the federal law that entitles students who are homeless to a free, appropriate public education and requires schools to remove barriers to their enrollment, attendance, and success in school. The Juniata County School District is committed to providing quality education for all students. This includes providing additional assistance to those children who are experiencing homelessness.

Definition of Homelessness

- Lacking a fixed, regular, and adequate nighttime residence; or
- Having a nighttime residence that is a shelter, temporary institutional residence, makeshift arrangements in someone else's home, or a place not designed for human accommodations.

Homeless Students' Rights

- Free and appropriate public education;
- Services comparable to those offered to non-homeless children and youth, including transportation;
- Choice to remain in their school of origin or transfer to a school in their current attendance area;
- Enrollment in school despite lack of permanent address or lack of school records.

Parents' Rights to the Education of Their Children

- You do not need a permanent address to enroll your child in school.

- You have a choice of school placement. Your child may remain at the same school he or she attended before becoming homeless, or enroll at the school serving the attendance area where you are receiving temporary shelter.
- Your homeless child cannot be denied school enrollment just because school records or other enrollment documentation is not immediately available.
- Your child has the right to participate in all extracurricular activities and all federal, state or local programs for which your child is eligible, including food programs; before- and after-school programs; vocational education; Title I; and other programs for gifted, talented and disadvantaged learners.
- Your child may have a right to transportation services to and from school.
- Your child cannot be isolated or separated from the mainstream school environment solely due to homelessness.
- If you do not agree with the educational placement of your child, you and your child have the right to receive prompt resolution of any dispute.
